

Loch Sport gets on board as the Loch Sport Sewerage Scheme ramps up!

So far over 85% of all residents have signed and returned their agreed design plans. This is a fantastic result and confirms the strong partnership between the contractors, community and Gippsland Water.

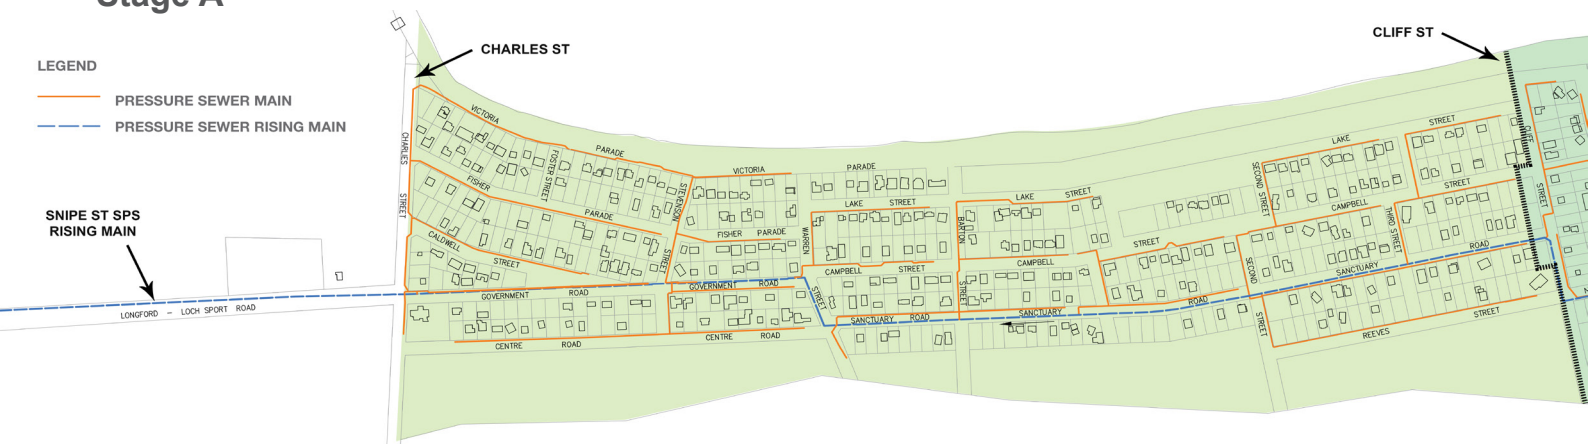

Installation of pressure sewer infrastructure on customers' properties in Stage A (around 350 properties) is kicking off in June 2014 followed by Stage B in October 2014.

Stage A: What's happening on your property?

From June 2014, PSSA will be installing the collection tank, house discharge line and electrical control panel for properties to be connected in Stage A.

Information about your connection options and timing will be sent to you in the mail shortly.

Stage A

Capital Contribution - applies to each property lot

Each property (lot) is required to contribute to the capital cost of the overall Loch Sport Sewerage Scheme. A capital contribution of \$800 or \$80 per year over a 20 year period is to be paid for each individual lot, including vacant blocks within the declared Loch Sport Sewerage district.

STAGE A: When do I have to pay Capital Contribution?

The Capital Contribution payment is due for Stage A in October 2014.

Property design plans:

If you haven't already returned your signed design plan please return it to:

- i-HUB, PO Box 139, Loch Sport, 3851

If you have not received your property design plan contact the i-HUB on 1800 631 688.

Your connection costs and options

As each stage of the scheme is available for connection, property owners will be able to connect their property to the newly installed pressure sewer unit. To assist with this process, a Connection Package with a range of connection options, house service connection quote and assistance details will be sent out to property owners.

When will you receive your Connection Package?

Stage A: July 2014

Stage B: November 2014

Stage C: March 2015

Stage D: July 2015

When can I connect my property to the Scheme?

Your property will be ready for connecting:

Stage A: October - November 2014

Stage B: February - March 2015

Stage C: June - July 2015

Stage D: October - November 2015

Impact to your property?

PSSA will aim to minimise disturbance which occurs on your property while the Pressure Sewer Unit is being installed. If you have any concerns or issues arise on your property after installation please contact the i-HUB on 1800 631 688.
