APPLICATION TO CONSTRUCT A BORE & PERMANENT TRANSFER WATER ENTITLEMENT

ROSEDALE GMU

Southern Rural Water (SRW) wishes to advise of an application to construct a new bore and to permanently transfer up to 120.0 megalitres of groundwater for urban supply purposes on land described as 33 McMillan Street, Briagolong.

It is proposed that the bore will be approximately 110 metres in depth and constructed in accordance with the Minimum Construction Requirements For Water Bores in Australia. All groundwater proposed to be extracted will be sourced from the Rosedale Groundwater Management Area.

Southern Rural Water is committed to an appropriate consultation process to ensure the proper consideration of relevant matters as prescribed by the *Water Act 1989*.

We therefore seek comment from any interested person or parties that considers they may be affected by these applications. Submissions on this proposal will be accepted until **4pm on 15 February 2022** and will be taken into account in determining these applications.

Please direct enquiries and submissions to:
