

**STOP IT.
DON'T
BLOCK IT.**

Everything you flush down the toilet or wash down the drain ends up in our sewer network. Items that aren't biodegradable, like the ones above, can cause blockages and costly damage.

So, **STOP IT. DON'T BLOCK IT.** Think before you flush things down the toilet or wash it down the sink.

Check with your local council about how to properly dispose of these items.

Find out more at gippswater.com.au or call 1800 066 401.
