

## Central Gippsland Region Water Corporation

### Annual Procurement Plan & Forward Notice

Gippsland Water is a regional water corporation in Victoria established under the Water Act 1989 on constituted on 21 December 1994. We deliver water to 69,788 customers and wastewater services to 62,469 customers in 43 towns. Our service area spans from Drouin in the west to Loch Sport in the east, from Briagolong in the north to Mirboo North in the south. This covers approximately 5,000 square kilometres in the municipalities of the Baw Baw Shire, Latrobe City, South Gippsland Shire and Wellington Shire.

To effectively and efficiently procure goods and services across the organisation and achieve the best value for money, Gippsland Water's procurement activity is aligned to the annual budget allocations, the Corporate Plan and the Essential Services Pricing Submission. The Annual Procurement Plan provides a summary of planned procurement activities.

The Annual Procurement Plan provides potential suppliers with an indication of likely procurements for Gippsland Water in the 2019 year. Gippsland Water will continue to look for marketplace solutions that are innovative, effective and deliver value for money.

Based on information at the time of publication, Gippsland Water expects to be engaging with the market in various ways, for the procurements listed below. Please note that all Gippsland Water planned procurements are subject to revision or cancellation. The information in the Annual Procurement Plan is provided for planning purposes only.

	Alfred Street Warragul Water Main Replacement	tenders@gippswater.com.au	6 Months	Open Tender	July 2019	
	The project involves construction of approximately 100 m of 200 mm water main, connecting into the DN450 distribution main at the eastern end of Trinca Lane and extending to the northern side of Queen Street. Works also involve installation of valves at the connection to the DN450 distribution main, to allow flexibility of supply. The renewal works allows decommissioning of the existing DN200 water main in the railway easement. The project also incorporates works at the south end of Smith Street, which involves disconnecting the existing water mains on the northern side of Queen Street from the 450 mm distribution main. A new 150 mm PVC water main will be constructed connecting into the DN200 AC

	main on the western side of Smith Street and the DN100 PVC main on the eastern side of Smith Street. Decommissioning of the existing 150 mm valves located at the southern end of Smith Street is also involved.					
	Rider Main Warragul Stage 1	tenders@gippswater.com.au	6 Months	Open Tender	July 2019	
	The project will be constructed in stages, with stage 1 work involving the construction of approximately 90 metres of DN180 HDPE rider main along the western side of Victoria Street, at the Napier Street intersection. Stage 2 works involve connecting to stage 1 and extending the rider main approximately 90 metres north of Napier Street. Stage 2 also includes approximately 70 metres of rider main crossing to the east side of Victoria Street and extending to the north, allowing connection to the property currently occupied by Woolworth's. Works for both stages incorporate re-establishment of property connections along the length of the new rider main, and decommissioning of the existing connections to the distribution main by removal of ferrules and welding of a compensation plate over the ferrule location					
GW487	Moe WWTP Inlet Works – Supply of Screens	tenders@gippswater.com.au	8 Months	Open Tender	May 2019	Design & Construct
	Tender is to supply and commission new traveling fine screen and new screen-specific washpactor at Moe WWTP. The Contract is to improve the screening capture at the head of the WWTP inlet works by providing a new traveling fine screen to replace the undersized step screen. Provide a new screen-specific washpactor to dewater screenings and improve organics retention. A Separate tender will be
