

Notification of intention to carry out testing

Provide a minimum 5 working days' notice for all testing unless noted otherwise

GW Reference Number:	
Street(s) / Section / Estate:	
Town:	
Consultant:	
Contractor:	
NATA Accredited Geotech Testing Provider (if applicable):	
NATA Accredited CCTV Contractor (if applicable):	
Inspection date:	
Inspection start time:	

Notes:

1. All non-NATA testing must be witnessed by the Design Consultant, a Gippsland Water Officer or an independent auditor as authorised by Gippsland Water. Failure to do so will require retesting to be carried out at the contractor's expense.
2. A site plan must be submitted with the form showing the location of the fire plug where the water will be taken.

Water pipelines

<input type="checkbox"/> Swabbing	<input type="checkbox"/>	Water Quality (2 working days' notice)
<input type="checkbox"/> Flushing	<input type="checkbox"/>	Disinfection
<input type="checkbox"/> Pressure testing		

For swabbing and flushing you must advise:

Metered hydrant number	Address water to be taken from	Existing main size (mm)	Expected total volume amount (L)	Requested duration (hours)	Requested dates	Time of day	Expected flow rate (L/s)

An RPZD must be fitted on the standpipe if water is to be taken from the hydrant:

RPZD Serial No:	Calibration Date:

Sewer pipelines

<input type="checkbox"/> Ovality testing
<input type="checkbox"/> CCTV/laser profiling
<input type="checkbox"/> MH vacuum testing
<input type="checkbox"/> Pipeline vacuum testing
<input type="checkbox"/> Compaction testing (embedment or backfill)
