

Gippsland Water People's Panel

Day 3: End of day reflections

How did we go today?

30 participants rated the day. The average rating was 4.07 out of 5.

Rating	Participants	Share
5 - great!	11	37%
4	12	40%
3	5	17%
2	2	7%
1 - not quite sure	0	0%

Raw data

Responses appear as participants entered them, with spelling corrected.

What did you like most about today? (26 answered)

#	Response
1	Morning session was good because we were able to ask questions of presenters at the time of presentation and the whole group was able to hear the reply.
2	The guest speakers sharing their knowledge
3	The guest speakers were amazing
4	The variety
5	Fishbowl session, hot food at lunch for gluten free people.
6	Learning new information and catching up with everyone
7	Expert information and answers
8	Q and a
9	The interactive digital question thing, as well as the grouping stuff at the end.
10	The group ran smoothly and the food was good too
11	Group meetings
12	Smaller group discussion
13	Food was great, using other rooms was a nice change
14	Fishbowl
15	The end of day activity was highlight. Going from individual thought, to partner, to small group and then to full group. Was a great progression of idea provocation. Giving a feeling of our ideas really entering the funnel towards recommendation.
16	Brainstorming ideas and finding middle ground.
17	Food was pretty good
18	Session Content
19	Group work
20	Fishbowl
21	Hearing the differing opinions
22	When we split off into smaller groups to discuss and ask questions
23	Groups

#	Response
24	The group chats
25	Engagement with content and colleagues
26	Hearing from other speakers/professionals

What is ONE thing that could change to make you add another star? (27 answered)

#	Response
1	Session straight after lunch was good and informative but last session seemed pointless and went on for far too long. Facilitators shouldn't cut off group conversations with Gippy Water personnel when they are gathering information/gaining answers to ?'s
2	Keeping it at 4 stars as each session is getting more better as I'm gaining more knowledge
3	I'm at 5 already, but a 6th star or general improvement would be some giving an earlier opportunity to format questions ahead of time for experts. I found the fish bowl was a bit too closed. Especially compared with the mini seminar of last session.
4	It was great. No change
5	[smiley face emoji]
6	Silly dance breaks. A lot of sitting today
7	Not much
8	Organisers removing themselves to the background or out of room to converse with GW staff other organisers so participants can still hear discussions
9	Groan zone is too repetitive
10	Make the day more interactive - I have trouble sitting and listening to talk and talk and more talk
11	Final small group exercise unclear, time constrained, felt very rushed.
12	Keeping it at 4 stars as each session is getting better as we acquire more knowledge
13	Managing our time better - we got a random 12-minute break, which was actually more like a 15-minute break, and then things got rushed at the end.
14	Nothing
15	Lower the noise level
16	Nothing at all
17	Shorter sessions
18	Nothing
19	Nothing all is good
20	Instructions about the group work could have been clearer.
21	When we were having group discussions we were being told that we had enough information from previous session yet we still had some questions today that we just wanted a recap on
22	A bit more time to flesh out the final activity.
23	Catering
24	Clear efforts made to improve noise levels (thank you). Still quiet at times
25	Audio was in need of some improvements, too much high pitched ringing made it hard to hear
26	Coke cans with our lunch
27	Less breakout groups
